1. Twentieth anniversary of IAAS ASA

Sassari LC

The local committee of IAAS ASA Sassari will celebrate his twenty years of activity from 7th to 8th of May 2015.

During the first day there will be a meeting about CAP and dairy produce quotas.

During the second day there will be a musical festival where folk groups from Sardinia and few bands will exhibit in one of the most important squares of our city.

We’re glad to celebrate this important occasion with all the other Local Committee all around Europe because of our desire of sharing and for the importance of CAP in European Policy.

If you want to take part to the celebration event, please fill the application form at the following link: http://goo.gl/forms/SxhpDbwFp0
